PROFILE

Operating in the entrepreneurial world, working closely to IT companies for more than 4 years, I started to grow more and more my interest for technology. My technical skills were strongly developed during my attendance at the course from the Informal School of IT. I learned to work with coding languages such as HTML, CSS, JavaScript and React JS. Furthermore, working as a Wordpress developer helped me grow my technical expertise with creating websites and optimising them from the SEO perspective. Overall, I am a quick learner and an easy adaptable person.
